

FOOD AND BEVERAGE PROCESSING AND PACKAGING SOLUTIONS

Improve Quality. Reduce Cost.

Food and beverage producers and distributors often operate within narrow margins and high-quality standards. You need to find new ways to leverage existing workers and equipment to stay competitive.

Orka Automation has over 50 years of combined experience working in the food and beverage industry. Our team members have managed projects for customers just starting to add automation to their processes, to major \$60MM installations for major food processing manufacturers. **We've been where you are, and we can help.**

EQUIPMENT INTEGRATION EXPERIENCE

Processing

- Batch and Continuous Kitchens

- Bottlers
- Cartonners
- Case Packers
- Palletizers

Bulk Farms

- Dry Silos
- Liquid Tanks

BENEFITS TO YOUR BUSINESS

Quality Control

Quality is an overarching concern for both producers and consumers. Automated processes and quality check points in your production process ensures consistent outputs, identifies potential issues sooner and helps ensure faulty product doesn't enter the marketplace while protecting your brand.

Flexibility for Growth

New products, new processes, same core equipment. Automation allows for flexibility with existing infrastructure, while positioning you for success in meeting future growth demands.

End-to-End Traceability

Improved traceability and reporting helps reduce regulatory compliance costs and continuously improves key processes.

WHY CHOOSE ORKA AUTOMATION?

It's simple – we value outcomes over orders. Our success is improving your results and automating better outcomes, together.

Contact Orka Automation today for a free consultation to identify automation opportunities for your business.
